Strategy: Text

Research: *According to a report by Aberdeen Group, businesses that communicate CRM success stories see a 20% higher adoption rate. Additionally, organizations that highlight CRM benefits achieve 39% higher sales quota attainment (PRWeb) (Highspot).b). Furthermore, companies with integrated CRM systems report 73% higher adoption rates.*

Measured data

- # of data entries / month
- # of Records created / month

Brainwriting Mind Map

TOPIC OR PROBLEM

How might we improve our mobile app so gym members have a delightful experience?

TEAM

- Product Team
- UX Design Team

NOTES

New data indicates that there is a decline in app downloads from new gym members.

	Lily	Oscar	Rachel	Preston	Billy	Grace
Round 1	Add an android version	Add a social element to the app	Have a section that helps gym goers find a gym buddy	Location tracking tells you how long you spend at gym	Have a leaderboard for people who have set gym records	Make the gym a judge free zone.
Round 2	Provide an incentive if they download the app	Users can post pictures & videos so other members can see them	A lot of people go to the gym to meet people, maybe have a public profile	Phones can track how many steps you take	Let's just require members to get the app	We could fine anyone that participate in body shaming
Round 3	Rewards program	Users can post comments on Instagram	Have a QR code scanner feature for people to add friends	Have a news feed with gym announcements	An option to send a video to trainer to get help	Gym-rat free zone!

AQUIVA

MM/DD/YYYY	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
Name	Version 01	Version 02	Version 03	Version 04
Goal	Acquisition: Free app, Limited in-app purchases	Activation: Focus on in-app purchases	Retention	Acquisition: New segment
Features	• Basic Game Functionality • Multiplayer • FB Integration	• Purchase Dance Moves • Create new dances	• New characters and floors • Enhanced visual design	• Street dance elements • Dance competition
Metrics	Downloads: top 10 dance app	Activations, Downloads	Daily active players, session length	Downloads
